9th Congress of the
EUROPEAN PAIN FEDERATION
EFIC®

PAIN IN EUROPE IX

VIENNA, AUSTRIA, 2-5, SEPTEMBER 2015

TRANSLATING EVIDENCE INTO PRACTICE

PROSPECTUS
Dear Friends and Colleagues,

I am proud to announce the 9th Congress of the European Pain Federation EFIC®.

This will be held in Vienna, Austria from 2nd-5th September 2015.

On behalf of the Federation, it gives me great pleasure to invite you to participate in this innovative and informative event that will once again be the leading pain congress in Europe.

EFIC has developed into Europe’s most important multidisciplinary and multi-professional organization in the field of pain medicine, representing 36 constituent National Pain Societies with over 20,000 scientists, physicians, nurses, psychologists, physiotherapists and other healthcare professionals. EFIC was formed in 1993, and has grown in numbers and scope over the last 21 years. It has become established as the European voice of all those who study and treat pain.

During the 9th Congress, we will explore the scientific application of clinical pain management and look ahead and highlight how best we can apply pain treatment in the future. We have an excellent and broad Scientific Programme Committee, chaired by Chris Eccleston. They are working on an attractive and ambitious program that covers all the different multidisciplinary aspects of research and medical practice in our field. Refresher Courses, Plenary Lectures, Topical Seminars and workshops, and daily poster presentations will encourage interaction and inspire exchange between participants. A comprehensive Industrial Exhibition and sponsored Satellite Symposia will perfectly complement the scientific content. The spacious Congress Center will provide ample room for all congress activities. On behalf of EFIC, I would like to encourage you to join us at this outstanding pain congress in 2015.

I look forward to welcoming you to the beautiful city of Vienna, and to a very successful congress.

Dr Chris Wells,
President, European Pain Federation EFIC®
ABOUT EFIC®

EFIC® - www.efic.org
EFIC is a multidisciplinary professional organisation in the field of pain science and pain medicine, made up of 35 European chapters of IASP (International Association for the Study of Pain). Established in 1993, EFIC’s 35 constituent chapters represent nearly 20,000 scientists, physicians, nurses, physiotherapists, psychologists and other healthcare professionals across Europe who study pain and treat patients in pain. The majority are clinicians practicing in clinical management of pain. EFIC will serve to advance research, education, clinical management and professional practice related to pain, and function as an authoritative, scientifically based resource concerning policy issues related to pain and its management.

EFIC® AIMS
Promotion of “Pain” as applied to all three categories: Research, Education and Clinical Management.
The specific aim is to create a forum for European collaboration on pain issues and to encourage communication at a European level between IASP Chapters, and also with other bodies interested or involved in the fields of pain research and therapy such as the European societies or federations of medical specialties (anaesthesiology, neurology, headache, palliative care etc.), institutions of the European Community, European and national educators and legislators.

EXAMPLES OF PAIN ISSUES THAT MAY BE DEALT WITH BY EFIC:
» The epidemiology of acute and chronic pain in Europe.-
» The availability of pain treatment facilities.-
» The interface between patient needs and treatment facilities.
» The recognition of differences in therapeutic strategies and pain education within Europe.
» The harmonization of such differences.
» Review of existing curricula and plans for training of pain specialists (it might be desirable to develop a European academy to accredit pain specialists, possibly by examination).
» Setting standards for diagnosis and treatment of chronic pains of different types and mechanisms.
